Requirements for Submissions to *Names*

Several recent submissions to the journal indicate that authors have not paid attention to the following requirement for submissions to *Names*. We ask that all authors read and comply with this prerequisite for submissions to the journal. Following these rules will facilitate the processing of submissions, and it will expedite editorial responses. This policy was decided at the meeting of the Executive Council of the American Name Society January 2011 and published in the Editorial in *Names* 59:2 (2011), 65.

Names is dedicated to publishing a broad diversity of previously unpublished scholarly articles and book reviews in the field of onomastics. Authors from every corner of the world are therefore warmly encouraged to submit their work. Please be aware, however, that *Names* requires all submissions to adhere to US American English grammar, punctuation, spelling, and style. All manuscripts must be scrupulously edited before submission to ensure the highest standard of academic writing. Work with numerous factual, typographical, and/or grammatical errors will not be accepted for peer review. Before submission, it is therefore strongly recommended that all manuscripts be carefully edited for style, content, and grammar by an experienced proofreader who is a native-speaker of US American English. Any contractual arrangement, which the author(s) may enter into will, however, be exclusively the sole financial responsibility of the author(s). Please be aware that the use of professional proofreading services will in no way guarantee the acceptance of a submission by the review committee and Journal editorial staff. However, the failure to appropriately edit a submission will automatically be considered sufficient grounds for immediate, unqualified rejection.

It should be noted that Maney Publishing has an arrangement with the Charlesworth Group, which offers a 10% discount for Maney authors.
