Correction to the last issue (11.143): The precise title of the paper read by Donald Joseph Orth at the Second Annual Names Institute should read, "Domestic Geographic Name Problems in Federal Mapping." We make particular mention of this item because it was an award paper at the 1963 American Congress of Surveying and Mapping meeting in Washington, D.C.

Forthcoming items probably to be included in the December issue: a report by Demetrius J. Georgacas on the VIIIth International Congress on Onomastic Sciences (*ANS* members attending the event were Professor J. B. Rudnyćkyj, Mr. and Mrs. Elsdon C. Smith, Mr. and Mr. John P. Pauls, Donald Joseph Orth, Professor C. L. Wrenn, Professor and Mrs. E. W. McMullen, and Professor Georgacas); Assar Janzén, "Scandinavian Place-Names in England. VI"; Robert Klymasz, "The Canadianization of Slavic Surnames. Part III (Conclusion)"; John R. Krueger, "Beer Brand Names in the United States"; and Paschal Reeves, "Thomas Wolfe's 'Old Catawba.'" The *ANS* Membership Roster will also appear in the December issue.

The Third Annual Names Institute is scheduled to be held at Fairleigh Dickinson University on Saturday, May 2, 1964. All *ANS* members are cordially invited to attend. Correspondence regarding the occasion, including information about papers to be read, may be addressed to the Editor.
