

Collections of the American Name Society
June, 1962, to December, 1963

KELSIE B. HARDER

THE BIBLIOGRAPHY below includes all material that has been added to the collections of the American Name Society since May, 1962. This list supplements those that have appeared in *Names*, 9 (1961), 277-288, and *Names*, 11 (1963), 26-30.

Several members have availed themselves of the use of the materials that have been listed in the bibliographies and it is hoped that still further use will be made of the collections. Users, however, are again asked to return the material within a reasonable time.

Members who have books or material pertaining to names are requested to remember the Society when they think of donating their books. The Society can build a substantial library out of donations from members. As the Society grows, more attention must be given to establishing an onomastics center where research students can obtain material pertaining to names. Members who contribute books on names from their libraries to the Society will do much toward making the Society much stronger as a research center. Even if the items are no more than old telephone directories and out-of-date dictionaries that lists names, they are valuable.

Many articles and notes appear in local magazines, state folklore magazines, and newspapers that do not ordinarily come to the attention of the Secretary. It will be helpful if members report these items as they come across them so that they can be obtained from the authors.
